Grow With Us Lexington County

Lexington County Council is asking for input from citizens on growth & development by [visiting this link](#). This will take you to an engagement portal entitled **GROW WITH US**, which is a planning process giving the opportunity for everyone who cares about the future of Lexington County to share their ideas and insight about the future. **It is VERY IMPORTANT that you do this quickly as this opportunity for input shuts down September 19th** and our voices need to be heard! This planning process will lay forth a framework for managing growth for years to come. This opportunity for all citizens to get involved and shape the future of our community is exciting and will ensure that the future growth of our county is guided by the community, not something that just “happens”.
