

Golden Agers Rock!

CELEBRATING SENIORS MAKING THE BEST OF THE REST OF THEIR LIVES

VOLUME 5, ISSUE 26

JUNE 25, 2021

Air Conditioning Appreciation Days

The invention of air conditioning! Let's just pause and think back to before we had this particular luxury. We didn't have A/C at my elementary or Jr. High school but we had to have it in high school. Not because we were spoiled, but because our class was the first in the new Columbia High School—hailed for its sleek design and lack of WINDOWS. Yes. They actually built a school with no windows! None of that pesky day-dreaming or fresh air stuff allowed here.

So, let's go back to 1902, when a young man named Willis Carrier was living in New York. Does that name sound familiar? It should. He was the first inventor of what we now know as modern A/C & his legacy continues today with the Carrier line of HVAC units.

But why did Carrier invent A/C? Ok, aside from the obvious "duh" moment from those of us who live in the south, like most inventions, it started with a problem. Carrier was trying to find a way to control humidity within a printing plant in Brooklyn. He discovered that when air passed over water-filled coils, it cooled off. It was only later that his air cooling devices began to be used in a residential application. Thank you, Willis!

My question is, how did folks stay cool before A/C? It's always been hot!

-Romans used aqueducts to transport cool water through the walls to cool off the stone used to build the homes.

-Rotary fans made up of 7 wheels were invented by the Chinese Han Dynasty.

-President Garfield was able to cool off his room by using a combination of air & sheets soaked in cool water.

Enough history...now on to important stuff...

The Week of June 28-July 4:

- Windjammer Days
- National Tire Safety Week
- Bean & Bacon Days
- Beer Pong Days
- National Tom Sawyer Days

July is:

- Air Conditioning Appreciation Month
- Family Golf Month
- National Deli Sandwich Month
- Baked Beans Month
- Blueberries Month
- Culinary Arts Month
- Deli Salad Month
- Doghouse Repair Month
- National Grilling Month
- Horseradish Month

July is also:

- Hot Dog Month
- Ice Cream Month
- National Picnic Month
- Watermelon Month
- Smart Irrigation Month
- Wheat Month
- World Watercolor Month

Some celebrations only last a day.

The last days of June are:

- 28th-**Body Piercing Day
- Lightning Safety Day
- Take Your Kid to Work Day

- 29th-**International Mud Day
- World Camera Day

- 30th-**California Avocado Day
- Meteor Watch Day
- Asteroid Day

The first days of July are:

- 1st-** Estee Lauder Day
- U.S. Postage Stamp Day
- Zip Code Day

- 2nd-** I Forgot Day
- Made in the USA Day
- Second Half of the Year Day
- World UFO Day

- 3rd-** Drop a Rock Day
- Superman Day
- Cherry Pit Spitting Day
- Deep Fried Clams Day
- Play Outside Day....and also...
- Stay Out of the Sun Day (hmm)

- 4th-** National BBQ Ribs Day
- Indivisible Day
- Boom Box Parade Day
- Independence Day
- Lou Gehrig Day

Have a great week & call if you need anything!

Serving Him & Loving it!

WEEKLY GIGGLE

You might be a redneck if your truck has a window unit.

I personally like the generator being used to power it.
